I am directed to say that with one exception all loc Governments have agreed with the suggestion conveyed this Department letter No.1740-H, dated the 2nd Octo 1931, in regard to the distribution of fees realised from examinations by a Medical Board for commutation pensions. The Government of India have accordingly decided that 25 per cent of the fees so realised sho be the share of Government, the balance being distri among the members of the Boards.

Admitted to Provincial Rules.

2. As regards the accounting procedure, the Government of India have under consideration certain modifications to the existing system under which the total fees are at present, in cases where they are divisible between the medical officer and Government first credited to Government, the share of the medic officer being afterwards drawn on a refund bill. The have, however, in consultation with the Auditor Gene

decided that so far as the crediting and disbursement of the fees realised from examinations by a Medical Board for commutation of pensions is concerned, only one-fourth of the fees, viz., Rs. 4 should be credited to Government as revenue of the Department to which the members of the Board belong and the balance should be paid by the examinee in cash to the Board at the time of the medical examination.

Full fee Rs 16

I am directed to say that after careful consideration o the views expressed by local Governments, the Governor General in Council is pleased to sanction under Fundamen Rule 46-A the acceptance by Indian Medical Service offic in civil employ of fees from private persons or bodies or public bodies for services other than professional attendance at the rates shown in the enclosed schedule. It is with a view to securing reasonable uniformity thro out India, the desirability of which has been stressed b the Secretary of State for India in Council, that it has been decided to make one schedule of rates applicable to provinces. The Government of India, however, realise th special circumstances existing in a province may possibl

5)

require for that province a modification of the scheduled rate of fee for any particular class of work, and they would be prepared to consider on a reference being made to them whether any alteration is necessary.

2. The acceptance of fees will be subject to the following conditions :-

(1) No work or class of work involving the acceptance of fees may be undertaken on behalf of a private person or body or public body, except with the knowledge and sanction, whether general or special, of a competent authority to be prescribed by the local Government under whom the medical officer is serving.

(2) In cases where the fee received by the medical officer is divisible between himself and Government, the total amount should first be paid into the Government treasury, the share of the medical officer being thereafter drawn on a refund bill in Civil Account Code form No.17. In such cases a complete record of the work done and of the fees received should be kept by the medical officer. Orders regarding the crediting and disbursement of fees have been separately issued by the Auditor General in India to all accounts authorities.(Cf.Art.217-A of the Civil Account Code, Volume I, 8th Edition.)

not put up

Note.- The above procedure will not apply to fee for examination by a medical board for commutation of pension, three-fourths of which will be paid to the medical board in cash by the examinee as laid down in this Department letter No.F.109/32-H., dated the 18th July, 1932.

(3) For private bacteriological, pathological and analytical work carried out in Government laboratories and in the Chemical Examiner's Department, 40 per cent.

of the fees should be credited to Government, the remainder (60 per cent.) being allowed to the Direc of the Laboratory or the Chemical Examiner as the c may be, who may divide it with his assistants and subordinates in such manner as he considers equitab No payment should, however, be made to officers fro the sale proceeds of those vaccines which are used a large scale for prophylactic purposes, for exampl T.A.B., Cholera, Influenza and Plague vaccines.

(4) The rates shown in the schedule are maxima which a medical officer will be free to reduce or remit, if he is entitled to appropriate them himself. In cases where the fee is divisible between the medica officer and Government, the former may charge lower rates in special cases where he considers it necess either owing to the pecuniary circumstances of the patient or for some other reason of public interest and the share of Government will be calculated on t basis of the fee actually realised instead of the scheduled fee, provided that the approval of Govern is obtained by a general or special order in this behalf.

3. I am to add that the schedule does not contain a compl or exhaustive list of all kinds of services other than pro- fessional attendance and that these orders do not supersede cancel any special orders in force at present (e.g. the orc issued under this Department letter No.1092-H, dated the 19 August, 1930 regarding the revised scale of fees for Kahn a Wasserman tests undertaken at the King Institute, Guindy). Sir,

In reply to your letter No. 3475-L.S.G., dated the 20th August 1935, I am directed to say that so far as concerns the credit of part of the fees for non-professional work in Government laboratories and the Chemical Examiner's Department to general revenues, the Finance Department Resolution No. F.I-III-Ex.II/35, dated the 31st July 1935 does not supersede the special orders contained in this Department letter No. F.18-10/32-H., dated the 28th September 1934, and previous orders on the same subject.

I have the honoru to be,

Sir,

Your most obedient servant,

Sd/- M.W.Yeatts.

Offg. Joint Secretary.
